SWITZERLAND

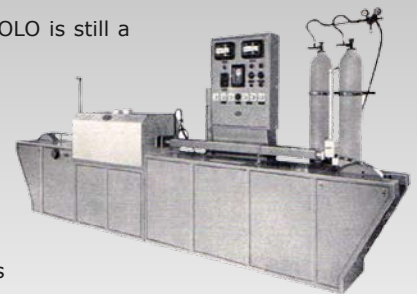

Edouard Sperisen
Founder of SOLO

SOLO SWISS SINCE 1945

SOLO was founded in 1945 by Mr. Käsermann and Mr. Sperisen. SOLO is still a family owned company, managed by the third generation.

Some important dates:

- 1945 – Founding in Bienne (Biel)
- 1955 – Development of a range of heat treatment furnaces
- 1960 – Export to Europe, Russia, Japan
- 1970 – Construction of a factory of 10'000 m² in Porrentruy (Switzerland)
- 1980 – Development of fully automated heat treatment installations
- 1993 – Buy out of Borel SA, manufacture of furnaces in Switzerland
- 2001 – Reorganization and closure of the factory in Bienne
- 2005 – ISO 9001 certification
- 2006 – Setting up of SOLO China
- 2010 – Setting up of SOLO North America

About us

SOLO Swiss Group manufactures advanced industrial furnaces for the heat treatment of metals.

Its headquarters are located in Bienne close to Bern. SOLO manufactures its furnaces in Porrentruy & Neuchatel, Switzerland and in Guangzhou, China. SOLO furnaces are used around the world in the metal working, automotive, electronics, metal finishing, as well as in , surgical, tool, and other diverse industries.

Product design, research and development are carried out in-house by Thermic Service SA, a division of the Group. SOLO is focused on customer service and can provide a worldwide service for repairs and maintenance. The entire SOLO product range is powered by Axron Software developed in-house by Axron Swiss Technology SA, a division of the Group.

SOLO is a responsible company and is committed to sustainable development, good corporate governance and sound business ethics.

We hope that you will become a part of our world !
